1. NAME OF THE PROPOSAL FOR THE COMPETITION AND NAME OF THE COMPETITION ANNOUNCER:

Proposal for the competition for the development of a conceptual urban and architectural design for the promenade in the "Budva Shell" part of the Budva-Bečići promenade, phase I

Municipality of Budva

Trg Sunca broj 3

85310 Budva

Tel: +382 33 451 000

Fax: +382 33 451 000

Web page: <https://budva.me/>

2. NAME AND SURNAME OF THE AUTHORIZED PERSON OF THE COMPETITION ANNOUNCER:

Milo Božović, President of the Municipality of Budva

3. AIM OF THE PROPOSAL FOR THE COMPETITION:

The main goal of the Proposal for the Competition is the selection of the best conceptual urban and architectural design for the promenade in the municipality of Budva, which will serve as the basis for elaboration through the main project, which will follow after the selection of the first-prized competition proposal work.

The general and ultimate goal is to create a new ecologically sustainable space that will contribute to the cultural and touristic development of the municipality of Budva with its facilities and appeal, which will respect the cultural heritage of the municipality and radically change the mode of use of the coastal zone by creating a series of new public spaces, by increasing the capacity of the existing promenade and connecting it with the Bečići promenade.

4. FORM OF THE PROPOSAL FOR THE COMPETITION:

The proposal for the competition for conceptual urban and architectural designs is international, general, single-level and anonymous.

5. COMPETITION TASK:

The competition task covers the part of the Municipality of Budva, which represents the center of cultural, entertainment and informative events. The proposal for the competition deals with four natural and heritage environments: the water area, the beach, the green area and the promenade.

Four ambient units are recognized, and they are divided into a total of nine sectors conditioned by the inherited and planned infrastructure - communication with contact zones towards the hinterland.

The first ambient unit consists of the protected zone of the Old Town of Budva with the surrounding beaches. (Sector 1)

The second ambient unit consists of the hinterland of the marina with the contact zone and the area where the expansion of the marina is planned and the contact zone that will serve for direct access to the marina - Solunska Street. (Sector 2, 3)

The third ambient unit consists of the beach Slovenska plaža and a promenade with access points from the hinterland of Budva and watercourses Savičića potok, Grđevica. (Sector 4, 5, 6, 7)

The fourth ambient unit consists of a transition zone from Slovenska plaža to Zavala Cape and Zavala Cape. (Sector 8, 9)

The promenade, which extends through four ambient units, represents an area that combines the cultural and historical heritage of the Old Town of Budva and the urban territory of the "Budva Shell".

The proposal for the competition is aimed to create a site plan for the development of a new identity for the city of Budva. It is necessary to provide a basis for the creation of collective awareness at two levels. At the primary level, it is the creation of collective awareness among the citizens of Budva as permanent users of the space and their treatment of the environment in which they find themselves. At a secondary level, it is the image that the city sends to the world and to tourists as temporary and occasional users of the space.

Special attention should be paid to the dispersion of facilities covered with the proposal for competition, with an emphasis on the linear flow of user movement and intersection with lateral directions from the hinterland and contact zones. It is necessary to radically change the mode of use of the coastal strip of land with an emphasis on the introduction of public areas for communication, recreation and outdoor events.

The main goal of the Proposal for competition is the selection of the best conceptual urban and architectural design for the promenade in the municipality of Budva, based on the parameters and recommendations specified in this Proposal for competition announcement and the competition task.

The scope of the subject area is indicated in the graphic attachments that are an integral part of the competition material.

The competition proposal paper must be done in accordance with the Proposal for competition Announcement based on the competition task, as well as in accordance with the regulations governing the subject area.

6. MANDATORY CONDITIONS FOR PARTICIPATION IN THE TENDER:
